SHE IS A SISTER-IN-LAW OF J. H. WINDER' Mr. and Mrs. Fellowes Will Make

. Their Future Home in Albany, * Ga., It Is Said. Raleigh, N. C., August 23 .- (Special.)-The most sensational affair in the history of North Carolina society occurred today

when Miss Bessie Boylan Tucker, the wealthiest young woman in Raleigh, left her home and forfeited all claims upon her share of her late father's estate, by marrying Mr. Edward Fellowes, a young Englishman, who has lived here for the past three years and who has stood first as a leader of society in the capita, city.

He is a son of Colonel Fellowes, of the English royal engineers and a nephew of Admiral Fellowes, of the English navy. The first news of the marriage, except to the closest friends of the young people, was made public today by Mr. W. R. Tucker, brother of the bride.

Mr. Tucker ranks high among the bankers and financiers of this city, and is a large stockholder in the Atlantic and North Carolina Seaboard Air-Line and other railroads. For more than a year the attentions Miss Tucker has received from Mr. Fellowes have been the subject of marked comment, and the slights offered the young Englishman by other members of the Tuck er family have caused much criticism in social circles.

Nearly a year ago Mr. Fellowes was de nied the privilege of calling at the Tucker mansion. The fact that Mr. Fellowes had been prohibited from the Tucker home, that other members of the family had made life unbearable for the young lady, that she had spent the days and nights since Friday with her sister, Mrs. James Boylan, and that Miss Tucker had wired Mr. Fellowes in New York, immediately upon his return from Europe that day, gave gossips something to whisper about, and when it became known that the Tucker family had made themselves conspicuous by their absence at the ceremony, society divided, with the family sympathizers in

the minority. It is said Mrs. Tucker gave her consent to the marriage, with the understanding that Miss Tucker is never again to find the doors of the Tucker home open to her. Immediately after the ceremony the bride and groom left via the Seaboard Air-Line. Mr. Fellowes has been connected with the cotton buyers, Charles E. Johnson and F. H. Lee, here for three years. He will go to Albany, Ga., to represent a big Liverpool company. He is the head of

ORGANIZED LABOR WILL MEET. Shooting Affair Made Occasion for a General Meeting.

Pittsburg, August 23 .- The shooting affair among the Italian miners of the New York and Cleveland Gas Coal Company was made occasion of a call for a general meeting of organized labor tomorrow evening at Knights of Labor hall.

President Patrick Dolan, of the miners' organization, had a narrow escape from death at 9 a. m. and John McLuckie, the camp commissarian, was badly hurt by being struck by a train. The two men were hurrying along the

Pan Handle track toward Sturgeon station. They did not notice the train they were to take was on the track, and it came up behind them. McLuckie was struck on the right side and fell. He was stunned and Dolan was shoved aside. He called to McLuckie to lie still for if he had moved a couple of inches he would have been crushed.

The eighteen strikers who were arrested at Camp Injunction at the Bunola mines for disorderly conduct and sent to jail for ten days, were released this morning. All returned to the camp.

MILLS RESUME OPERATION. Many in New England Start Up After Idleness-Outlook Bright.

Boston. August 23.—Dispatches from dif-ferent New England manufacturing cen-ters today announce that many cotton mills which have been idle resumed operation today.

During a part of July and August thousands of spindles were not operated in this section owing to unsatisfactory conditions which prevailed, either in the finished

goods or new cotton market, or to the need of repairs.

In addition to this several other mills closed for two weeks in accordance with their annual midsummer custom. Many of the Fall River mills resumed operation last week and several started today. Several of the Lowell mills resumed in whole or in part today and reports from that city indicate that the outlook is promising.

Youngstown, O., August 23.-The Girard mill of the Union from and Steel Com-pany, which has not been in operation for four years, will start again on Wednesday. It employs about 200 hands.

Cleveland, O., August 23.—Work was resumed in all departments of the Britton tin piate mills today, the strikers accepting the terms of the company and going back to work. Work has also been resumed in all departments of the Union rolling mill.

The royal Irish regiment and native infantry with a battery of mountain artillery have been ordered to Kohal.

Peshawaurk, August 23.-The Afridas began an attack upon Ali Musjed at 8 o'clock this morning and upon Fort Maude shortly after 10 o'clock. Both are garrisoned with Khyber native levies. The enemy is also entering Khyber Pass. General Wesmascott has sent artillery to the mouth of the pass to shell them if possible. The artillery was accompanied by the Ninth

Bengal Lanciers. Simla, August 23.-There are persistent rumors here tonight that Port Ali Musjid and Fort Maude, which were attacked this morning by Afridis, have fallen into the hands of the enemy, but there is no official

among the producers. At the afternoon session there were present on behalf of the miners National President M. D. Ratchford, National Secretary-Treasurer W. C. He said on former occasions the miners went to the operators, when with crocodile tears the conditions were deplored by the operators. Now, he said, it was different, the operators had come to the miners. He expressed himself in favor of arbitration at a living rate of wages.

MANY ENTRIES FOR THE \$40,000 STAKE

Two- Year-Olds Will Battle for a Rich Purse Teday.

WINNER WILL GET A FORTUNE

Hamburg, the Sure Thing, Will Not Leave His Stall.

CONTEST IS CONSIDERED AN OPEN ONE

Eighteen Fast Horses Are Booked To Start in the Great Futurity This Afternoon.

New York, August 23 .- The prospects for a fine day for the Futurity were exceedingly poor tonight and all of the horsemen who had what they called mud horses, were hoping for rain and plenty of it for the rich stake for two-year-olds, in which about \$40,000 will go to the winner.

On the otner hand, the real lovers of the sport longed for a fine day and no flukes so that the best horse might win, although it was conceded that Hamburg could easily beat any of the lot down in the greastest two-year-old stake of the year, but unfortunately Hamburg will not run.

The list of starters, with the weights and jockeys, is as follows:

Gibraltar, 118, Scherrer, The Huguenot, 118, W. Martin. L'Alouette, 178, Clawson. Briar Sweet, 115, Taral: Grand Sachem, 108, Ham. Amazonian, 113, —.

Uriel, 115, Sloan, Cock Robin, 108, H. Martin. Frohman, 118, Perkins. Plaudit. 118. Beauchamp. Previous, 116, Sims. Central Trust, 115, Hewitt. Gala Day, 168, McCafferty. Howland, 115, Wilhite. Arequebus, 105, Doggett.

Demagogue, 115, Penn. Handsel, 108, Clayton. Ruby Lips, 405, H. Lewis. It was the general opinion of all that never before in the history of the Futurity was it so open a race, and further that if

Hamburg were there the others might as well stay in their stables as far as winning was concerned. As to the favorite among the betting men, it looked very much like Gibraltar or Howland, especially as the latter was said to have improved immeasurably in the last few weeks The good race of Gibraltar at the Brightton track last week made him a strong choice, although it was argued that that was but a half mile race and it had yet to be determined whether he could go a route. Uriel's great speed in the spring was undoubted, and his trials have been

entirely satisfactory to his trainers, and then the trainer is to be respected. Cock Robin, the lightweight of the Keen string. is good just now, and his maiden race was such a good one that he was in favor among those who saw him. The Daly trio, Briar Sweet, Grand Sachem and Amazonian, were reported to be in prime condition, and with Taral on Briar Sweet, she will certainly have many backers, particularly as she is a full sister to Dr. Hasbrouck, one of the greatest sprinters in years. Frohman is a very doubtful star, Mr. Gideon saying that his work was not satisfactory enough. One of the horses respected by many is Previous, who never performs twice alike, but where he has been in the race with the quality he has always performed well. Plaudit, another western representative comes east with a trainer he has a rare chance to win. As for Gala Day, which McCafferty will ride at overweight, there will be much curiosity, and Arequebus, Handsel and Ruby Lips are sure to meet with some support. In fact the lavers of odds are likely to have their Fands full even if only a dozen of the lot go to the post, and that number is certain to appear, while the chances are

"I was a complete wreck; appetite gone, nervous system impaired; could not sleep, and was so weak that I could not stand on my feet ten minutes," writes Miss Ella Bartley, of No. 213% South Grant Avenue, Columbus, Ohio: "I only weighed 95% pounds when I commenced taking Dr. Pierce's Golden Medical Discovery. After I had taken a half bottle I began to improve; I could sleep soundly the whole night, and would awaken with an appetite for breakfast, which was a rare thing as I never had for two years back eaten a hearty breakfast. I now have an excellent appetite, and my friends say they never saw me looking better or in better spirits since they knew me. I tell them it is all due to Dr. Pierce's 'Discovery,' and I am so thankful and grateful that I never tire of praising his medicine every opportunity I get. I had about given up in despair, and nobody knows what those words imply, but those who have suffered—like I did for two long years. I was convinced that your medicine would help me, and I am here in person, a living testimonial of its merits."

NISBETT DEFEATS LARNED.

Englishman Wins the National Championship in Tennis.

Newport, R. I., August 23.—The biggest surprise of the tennis tournament, and in fact of the whole tennis season, was the defeat today of William A. Larned, the acknowledged leader of the game in this country, by Hugh A. Nisbett, of England, in the semi-final round of the all comers tournament for the national championship. With the match well in hand by two sets to love, with the score five games to four in his favor, in the third set Larned was twice within one point necessary for the match. In both cases he drove into the net and at last Nisbett took the necessary game to make it five all. Again in this set Larned was within two points of winning the match, but could not quite reach it. Such exasperating playing was only a repetition of the exhibition which he gave last year in his match with Bon Wrenn and it is this very uncertainty that makes his game an agonizing one to witness. The weather conditions today were distinctly English, for a misty northeaster blew over the courts previous to the match and made the turt slippery and uncertain. Both players fell and Larned lost the deciding point in the fourth set by sliding on the grade. the net and at last Nisbett took the neces the grade.

The sky was dull and gray throughout.
Before the two sets had been played D.
Eaves had on another court defeated Leo
Ware, of Boston, thereby slipping into the
final round of the tournament.

much to the surprise of Walthour's backers, Anderson for the first time succeeded in showing Walthour how his rear wheel looked while going at about a twominute gait. Both men will ride wheels geared at 88 and there will be no advantage on that point. Anderson has been riding a wheel geared to 74, but practice on the track soon showed him that he could not be in it with that low a gear, so yesterday he tried an 88 and found that he could at least give Walthour the best race that he has yet had. If Walthour wins tothat he has yet had. If Walthour wins to-night one thing is certain, and that is that will have the hardest race of his life. standing in the company.

Lieutenant Maury has been with company K since it was first organized, and is recognized as an efficient officer. In many instances he has proved his great regard for his friends in working up the interest of

the members. He is a sharpshooter in the state's company. At the shoot held a few weeks ago he made his record that gave him cross. Every member of company K admires Mr. Maury, and it was with regret, and only at his earnest solicitation that his resignation was accepted.

At the meeting Tuesday night Captain Massey read out the resignation that had been handed to him. Resolutions will be written thanking Lieutenant Maury for his past interest in the company and for his fine record that was made while an officer. Captain Massey referred the recommenda

tion to the adjutant general.

At the meeting last Tuesday night the successor of Lleutenant Maury was discussed. Mr. Walter M. Davis, who is a well known military man, was mentioned. Mr. Davis has not been living in Atlanta very many months, but joined company K soon after his arrival. He has made himself popular with the members during the short while he has been a member, and his name was received with applause by Mr. Walter M. Davis was nominated for

the position of first lieutenant, and will recommended by the company to the ernor. His appointment will follow. Mr. Davis is the son of Colonel

ernor. His appointment will follow.

Mr. Davis is the son of Colonel Bob
Davis, the genial congressman from Florida. Young Davis has inherited his father's
faculty for making friends and numbers
them in Atlanta by the hundreds. He is
practicing law at the Atlanta bar, and
promises to become one of the most prominent barristers of the state.

There are few men in Atlanta who have
a better military education than Walter
Davis. He received his earlier education at
the East Florida Military academy. He
was senior captain of the cadets for two
years. After finishing his collegiate course,
he was elected captain of the Gem City
Guards, of Falatka, Fla. He held this position until he was appointed battallon adjutant of the state troops of that state.

With these recommendations and the nomination that was given him by the company, Mr. Davis will be the next senior
lieutenant of company K.

The resignation of Lieutenant Maury does
not go into effect until the 1st of September.
Before this time Governor Akinson will
have signed the commission for his suc-

WHITE SUPREMACY IS THE GREAT ISSUE

Democrats of North Carolina Outline | This Is What the Officers Say About the Coming Campaign.

Three Prominent Democratic Leaders

Speak for the Party.

Present Administration Must Be Condemned and the Negro Rule

Overcome.

Raleigh, N. C., August 23 .- (Special.)-Almost in a day the democratic plan of campaign in North Carolina is developed and it means white supremacy and the complete severance of all relations with the populists as a party. Ex-Governor Jarvis, F. M. Simmons and Ed Chambers Smith, all ex-chairmen of the party and now members of its central committee, were interviewed by your correspondent today.

"While I am a friend to the negro and have done all I could to help him, yet it is clear that the white republicans cannot govern the state without negro support. They are utterly incapable of giving proper state, county or municipal govrenment They are creatures of the negroes and you cannot expect the creature to rise above the creator. All other questions fade into insignificance when compared with this overmastering issue of white supremacy. Senator Butler has a rocky road to travel. When a man deserts principle and goes for spoils he is bound to strike rocks."

Ex-Chairman Simmons said: "The keynotes of the campaign will be the record of the fusion administration, white supremacy and a straight fight."

"Our platform must cendemn the rascality and incompetency of the republicanpopulist administration," said Mr. Smith, unquestionably the supreme issue will be the control of the state by the white people. This means the stoppage of the outrages, largely committed because the republican party is in power. I am for a straight fight and no fusion with populists and for letting them stay where they say they want to be-that is, in the middle

From the chain of evidence that has been bound around Tom Inman, alias Jim Jackson, alias Tom Butler, and half a dozen other aliases, it looks as if he is the guilty

The lost hat that was picked up at the head of the Broad street bridge fits the negro in the police barracks, and every description of the fleeing assailant fits him. If the testimony of half a dozen people is to be relied on there is no question but he will be sent up. On three distinct occa-sions Inman has referred to the murder of Patrolman Albert. He told another negro just a few days ago that if "Jimpson" Wil-liams had not shot Albert he would have done it. He has admitted that he was the one the patrolman had hold of when the fatal shot was fired. "It's a good thing 'Jimpson' shot when

he did, as I was just getting ready to pull down on him," was what Inman told two different negroes. For several days the detectives have been looking for Inman. Several clews have been followed up, but the last one led to the

arrest of the man, that there is no question of doubt about. Inman is short and thick set. He is said to have been seen with Williams a number of times, and there is one witness who will swear that they were together on the night of the 8th of August, when the patrolman was shot down.
Williams, who is said to have done the shooting, is in jail waiting trial. Detectives Harris and Wooten made the arrest yesterday. They learned that the negro was working on a house, carrying

#### AT THE THEATERS.

Will Present Souvenirs. The announcement that the Lyceum theater would present souvenirs at the

Wednesday matinee seems to have struck the popular chord, as the advance sale of seats indicates that they will be an unseats indicates that they will be an un-usually large audience. All day yesterday Treasurer Looney, of the Lyceum, was kept busy supplying those who wished tickets and by night the sale had reached flattering proportions.

Manager Sharp states that when he opens on next Wednesday night the patrons will

be treated with a real metropolitan opening. The orchestra, under the direction of Professor Osborne, will be augmented and during the evening all of the latest musical selections will be rendered.
From beginning to end the tale unfolded in "Bonnie Scotland" is of intense and unlagging interest. Its title is Scotch and

the scenes are laid in Scotland. Few Americans have been given an insight into the customs prevalent there and the sentiments that can be produced under such surround ings. Fewer still have had the opportunity f coming in touch with characters of that kind. Naturally the production is a nove one and possesses an indescribable charm for American play-goers. "King of Glen and Craig," "Come Under My Plaidie" and "Highland Heather" are the original songs of the play that never fail to bring forth plaudits, while numerous other spe-cialties lend a charm that it all their own. There is a great treat in store for all who witness the performance and the Lyceum will probably be packed.

"Darkest Russia." For a production that combines the properties of a good play, an excellent company and able staging, "Darkest Russia," which will appear at the Lyccum theater Thursday, August 26th, is certainly worthy of a place in the front rank. From all indications it will prove one of the best theatrical events of the season and an unusual amount of interest has been aroused in this city. Its story goes straight to the hearts of the listeners and everyone who sees the production can be instantly recorded amongst its friends. The field of action of the play is practically unlimited and the theme which treats of life in the Russian empire is thoroughly handled. The characters portrayed range from the peasant to the noble, from the nihilist to the auto-crat, whom he seeks to cast from power. The scenes extend from St. Petersburg to the land of Siberia and in the treatment of the subject the bright and humorous, as well as the heavy and startling sides of life in that country are embraced. It would be hard to conceive of a production with more interesting as well as instructive features.

"On the Bowery" will have its first pre sentation on an Atlanta stage next week at the Grand.

This is the eminently successful play that has Frank Bush as a leading actor. It is one of the most realistic portrayals of New York low lift that the stage has ever seen The saloon scene has been recognized by critics and public as something really unique in the way of lifelike comedy. Like Brodie's saloon has a most strikingly dra-matic ending. One of the dramatic cli-maxes of the play is the jump by Chuck

Conrors from the Brooklyn bridge, at the end of the third act.

The bridge scene itself is a wonderful achievement on the part of that great scenic artist, John H. Young. By an in-genious device, the artist deludes the spectators into the fancy that they can see all the way from the New York towers to those of the Brooklyn end of the bridge. The means employed to create this effect of perspective have never before been used. The new specialties introduced this season are all such as fit and enhance the Bowery atmosphere of the play. has found the exact remedy that cures the trouble.

He is guarding the secret carefully, but is willing to send a sample of the medicine to all men who suffer with any form of sexual weakness resulting from youthful ignorance, premature loss of memory and strength, weak back, varicocle and emaciation. The remedy has a neculiarly grateful effect of warmth and seems to act directly, giving needed strength and development wherever needed. The remedy cured Mr. Johnston completely of all the ills and troubles that come from years of misuse of the naturally ordained functions and is said to be absolutely reliable in every case.

A request to Mr. James P. Johnston, box 1109. Fort Wayne, Ind., stating that you would like a sample of his remedy for men will be complied with promptly and ne charge whatever will be asked by him. He is very much, interested in spreading the news of this great remedy and he is careful to rend the sample securely sealed in a perfectly plain package so that its recipient need have no fear of embarrassment or publicity.

### MRS. W. L. SCRUGGS HAS PASSED AWAY

Morning at 12:15 O'Clock.

Stepped from a Train Going at a Rapid Rate and Was Hurled to the Ground.

INJURIES CAUSED HER MUCH SUFFERING

Hopes for Her Recovery Were Entertained at First, but She Slowly Grew Worse.

Mrs. W. L. Scruggs died at her residence o'clock this morning, after suffering for a week with injuries received from a fall. For the past few days Mrs. Scruggs had been critically ill and a couple of nights ago there was a sudden change for the worse in her condition. Up to that time hopes for her recovery had been entertained. A consultation was held by the physiclans and it was found that unless a change for the better came very soon Mrs. Scruggs could not live. She was very low yesterday and last night a few minutes after 12 o'clock she passed away.

The accident which caused Mrs. Scruggs's death was a peculiar one, and it was almost a miracle that she was not killed at the time it happened.

She fell from the platform of a train going at full speed and lay by the side of the track for several hours.

Mrs. Scruggs mistook the glass door on the platform of a vestibuled car for the door of the tollet room and the light not being very bright, she opened the door and stepped from the train. As soon as she was missed her husband

and daughter went back to search for her and found her near the track. She was brought to Atlanta and had been under the care of physicians ever since. It was thought that when she recovered

from the shock of the fall she would recover from the injuries sustained. Soon after the accident she grew better, but the change did not last long and she soon became worse. A collapse came and last night she succumbed to the strain.

Mrs. Scruggs was well known in Atlanta and had hundreds of friends here, The accident that happened to her was a deep shock to them and they will be grieved to hear of its sad result. The funeral arrangements will be an-

nounced later. Mrs. Little Dies in Chira.

Lynchburg, Va., August 23.—Mrs. Pauline Dubose Little, wife of Rev. Lacy L. Little, died at Kamisawa, Japan, July 25th. She was the daughter of Rev. H. C. Dubose one of the oldest missionaries in China of the Southern Presbyterian church.

Mrs. E. A. Brinson, Lawtonville, Ga. Augusta, Ga., August 23.—(Special.)—Mrs. Robert A. Brinson, of Lawtonville, Burke county, formerly Miss Carrie Reynolds, died tonight at the home of her father, J. W. Reynolds, in this city, She was married about a year ago.

H. S. Crawford, Kingston, Ga. Kingston, Ga., August 23.—(Special.)—H. S. Crawford, an aged citizen of this place, died last night.

MR. WM. LAIRD VERY SICK.

HIS PHYSICIANS HOLD A CONSUL-TATION.

One of Atlanta's Best Known

Mr. William Laird, official weigher of the city of Atlanta and one of the best known men in the city, is critically ill at his resi-

dence, No. 28 Georgia avenue. Mr. Laird has been sick since last Saturday morning and has gradually grown worse until yesterday morning, when it became necessary for the attending physiclans to hold a consultation.

Mr. Laird was attacked with a spell of weakness last Saturday morning while dressing and it affected him so badly that compelled to take to his bed. He hought he would soon be better, but the illness took a more serious turn and he

Father Finds His Daughter with Man Who Has a Living Wife.

HIS VISITS HAD BEEN FOREIDDEN Coroner's Jury, After a Thorough Investigation, Returns a Verdict of Manslaughter.

Talbotton, Ga., August 23.-(Special.)-In on Peachtree street shortly before 12:30 | the Valley district of this county yesterday about sundown C. R. Womble, a prominent farmer, killed Eugene E. Love, also a farmer, of this county, and his neighbor, with a rock.

Love was a married man. His wife lives in Thomaston, but they have been separated for some years.

Love began recently to visit Bertha, the oldest daughter of Womble, and Womble forbade him visiting his house. Last evening Womble saw his daughter leave his ise and go out in the woods adjoining. The lateness of the hour aroused his sus picion, and he followed her and found her and Love about two hundred yards from the house in a secluded part of the woods. Womble demanded an explanation, when Love attacked him. Womble then drew his pistol and fired three shots at Love Love turned and ran, and Womble, losing confidence in his pistol, seized a rock, overtook Love and knocked his brains out.

Womble is a man of considerable influence. He is about fifty-six years old, and was a lieutenant in the confederate army. Love was about fifty-four years old, and one of the few white radicals of this county. His reputation is rather shady. His wife quit him on account of mistreatment.

Immediately after the killing, Womble rotified his neighbors of what he had done. and then came to Talbotton and surrendered to the sheriff. The coroner held an inquest and returned a verdict of manslaughter.

Love was a polished man, and once was very wealthy, and had evidently won the affections of Miss Bertha Womble. While regretting the affair, Womble says he was forced to commit the deed to protect the honor of his daughter and family. Columbus, Ga., August 23 .- (Special.)-E. E. Love, who was killed in Talbot county yesterday by C. R. Womble, was the only son of Mrs. Love, of this city. Information was received here of the killing this morning. The trial was postponed from last June on account of the illness of Judge John I. Hall, of Hall, and Colonel Hardeman, leading counsel.

Recently Judge John L. Hardeman, Judge Hall's partner, has been quite sick and is still a sick man, and Judge Hall has not yet fully regained his health. It has been believed that on account of the sickness of Judges Hall and Hardeman the trials would not occur at

GOVERNMENT TAKING STEPS FOR PEACE Result of Correspondence Between Lieutenant Colding and Assist-

ant Secretary of the Navy. Savanrah, Ga., August 23.-(Special.)-Sa-

vannah is to have a practice ship for her naval militia whether the Passaic is removed from Brunswick or not. This information was received from Washington today in the shape of an interview with Assistant Secretary Roosevelt, of the navy, who has already had considerable correspondence on the subject. The interview is the result of a letter with regard to the matter written by Mr. Roosevelt to Lieutenant H. S. Colding. Mr. Roosevelt has not decided to remove the Passaic from Bruns wick and the chances are that he will not do so, but it is his intention, he states, to send a practice ship to Savannah, probably one of the monitor class like the Passaic. Mr. Roosevelt commends the energy and activity of the Savannah reserves and says he desires to give them a ship in order that their efficiency may be increased. He has no desire to cripple the Brunswick divisions or to punish them, as suggested in the re port of Commander Todd, of the Wilmington, and for that reason it is not likely he will order the Passaic removed. Congressman Brantley wrote Mr. Roosevelt protesting against the report of Commander Todd with regard to the Brunswick reserves and protesting against the removal of the Passaic. It is intimated that no attention will be paid to that portion of the letter protesting against the strictures on the Brunswick reserves, for the reason that Mr. Roosvelt instructed all commanders having naval reserve divisions in charge to criticise where criticism was needed and to call a spade a spade. This has been done in other states besides Georgia. Lieuenant Colding made his request through the adjutant general's office, but Acting Adjutant General Oscar J. Brown refused ab-

solutely to transmit the request to Wash-Anticipating this, Lieutenant Colding also wrote to Washington with the result that Savannah has absolutely been promised a practice ship. Lieutenant Colding says he is glad the matter has taken this turn. His request was made under advice and in the belief that Georgia would be allowed only one ship. He says he has never had any desire to hurt Brunswick, and he would prefer another ship sent here, let-Bank tellers have accepted the counterting the Passaic remain there.

The Lease System.

It is useless to deny that the prison horrors recited in the report of Colonel Byrd strike a blow at the best interests of the state; but all Christian men and women should remember that it is not publicity that hurts, but the fact that such a condition of things could exist among a people who are second to none in civilization and refinement. There is nothing to be feared from a publicity that is, in itself, almost a remedy for the evils complained of. And even if it were otherwise, the state must expect to suffer from the results of a system so out of harmony with the laws of God and man, and so revolting to humanity.

The reforms demanded at this juncture can be brought about only by means of the most complete publicity. Left alone, the rottenness which exists is bound to spread its demoralizing contagion into unexpected quarters. evidence of this is to be found in one portion of Colonel Byrd's report, where it is stated that the grand Jury of a county, in order to avoid the results of complicity, refused to indict a man who had killed an unfortunate convict. Can a state of affairs worse than this be imagined? Here justice, humanity and all the intentions of the law are sacrificed also afford to apply the same standard to a desire to conceal the facts and avoid of charity to similar outbreaks in other publicity. One crime begets another almost as bad; and so the demoralizing contagion spreads.

The only way to stop it is to make will be afraid to carry on their pestifer- a crime in Illinois? ous work. We recognize the fact, however, that publicity is only a temporary remedy. For a few weeks the cruelties will be suspended; but they will be promptly resumed again when public indignation subsides. Nevertheless, it is only by means of a public exposure such as Colonel Byrd's report makes, and such as The Constitution proposes to promote, that a real remedy can be devised. Public exposure with this end in view will hurt the state far less than a further toleration of the horrors that exist in the camps of the misdemeanor convicts. To hide or cover up the facts involves the state in far deeper disgrace than to spread the horrors before the public.

The crimes and cruelties which have been laid bare should have the effect of arousing a unanimous public sentiment against the lease system, which is to expire two years from now. We make no special indictment against those who have had the management of the state convicts. They have done the best they could under the circumstances, and their camps have been under the constant guardianship of the state. But the whole system of private lease is preposterous -a relic of the days when the state was fighting against social and political

It was simply an expedient, and has never adjusted itself to the public policy of the state. The controversies that have raged about it demonstrate conclusively that the public sentiment of the state has never been satisfied with the experiment, and will never be satisfied with it as a finality. Let the general assembly recognize this fact now, and act accordingly. There is ample time between now and the expiration of the leases for the legislature to discuss, digest and organize a penitentiary system that shall have the merit | rantankerous gold organ. of being in accord with the public policy of the state and of meeting the ap-

proval of the people. We note that Judge Turner, the principal keeper of the penitentiary, has made a report in which he makes some suggestions for a substitute plan. We shall not now discuss these suggestions with the purpose of discovering their merit. All suggestions are in order. But we think it is unfortunate that the proposed plan should involve a continuation of the lease, even for five years beyond the date of its expiration. Such | gold. But there are some blows that

a proposition is calculated to prejudice the public against his plan at the out-The time has come to get rid of the lease system for good and all, and any plan to postpone that event will not receive the approval of the people.

There is no need for postponement. The state has ample time to perfect a permanent system-a system suited to the peculiar exigencies which the result of the late war has compelled us to endure. The horrors that are spread out in Colonel Byrd's report are the natural outcome of the lease system, and the state cannot afford to tolerate anything which will lead even remotely to such disgraceful results.

Nor do the necessities of the case de mand the establishment of a penal colony which will compete in any material way with free labor. The lease system has demonstrated one thing, namely that the convicts thrive better in the open air at outdoor work than they do when confined to labor that does not call for bodily exercise. But all these things are matters for future discussion The main thing now is to have it clearly understood that when the present lease contracts expire, the system must be abolished at once and forever.

An Interesting Event.

The state intercollegiate oratorical contest takes place tonight at 8 o'clock charge for admission-will be made, it is probable that the participants in this interesting event will be greeted by a large house.

Representatives of five of the higher educational institutions of the state will speak for a medal offered by Hon. John Temple Graves. Each institution has put forward its best man. The meeting will be presided over by United States Senator O. A. Bacon, and competent committees have been chosen to award the medal.

It is to be hoped that the interest in this meeting will result in establishing chairs of oratory in every college in Some colleges now have what are called by courtesy, chairs of oratory; but in not one of the higher educational institutions of the state is there a department devoted exclusively to oratory. In many of the northern and western colleges, this chair is rapidly becoming one of special importance, and so it should be in the south. It is said that have under consideration the establishment of such a chair, and no doubt other

Queer Views from Mexico.

The Constitution is of the opinion that those gold organs which are piously engaged in extending their sympathy and condolence to Mexico on account of the the supposed deplorable condition in which that country is left by the fall of silver have failed to read the dispatch recently sent to The New York Herald by that paper's special correspondent in the City of Mexico.

That dispatch makes very interesting reading at this time. The Constitution has already printed it in full, but some of the statements made by The Herald's Mexican correspondent are worthy of further consideration. In order to thoroughly understand the situation depicted by the correspondent, it is necessary for our readers to bear in mind that, while silver has depreciated with respect to gold in the gold standard countries, no such result has taken place in Mexico. Silver has not fallen at all, has not decreased in purchasing power to an appreciable extent. On the other hand, gold has risen to a premium of \$1.45.

Remembering this fact, it is eassy to understand the dispatch, which would otherwise be inexplicable. Merchants canceling their orders for import. Why? Because they can get no more silver for the stocks they have on hand than they could before gold rose; consequently they are unable to import goods except

at a profit. Meanwhile, Mexican manufacturers are enjoying the greatest boom in their history, as the gold premium makes a most effective tariff wall. All the agricultural interests are prosperous, as they sell abroad for gold and pay their laborers in silver. "Strange to say," marks the correspondent of The Herald. Yearly Cotton Waste. A writer in The New York Commercial Advertiser is authority for the statement that the amount of cotton destroyed annually in this country by fire, improper baling and careless handling, aggregates something like \$25,

the writer goes on to show that when the various accidents of the year are summed up they constitute a tax of \$3.50 on each bale of cotton produced. On the basis of last year's cotton crop, which aggregated 7,000,000 bales in round numbers, he shows that the total loss to the south amounted to \$24,500,000. Undoubtedly these figures are excessive but they will serve to open the eyes of our farmers to the importance of exercising greater care in the matter of baling cotton, and also to the urgent necessity which is every day becoming more and more imperative of adopting some new and improved method of bal-

While the writer fails to suggest any specific remedy for the evil which he points out in these amazing figures, he makes a comparison between the loose methods of baling which prevail in this country, and the more effective methods which obtain in Idia and Egypt. Says the writer in this connection:

The Irdian and Egyptian cotton exporters pack their bales with rare skill, while their American competitor is lax and often negligent. The Egyptian manages to ge forty pounds into a cubic foot in density the Indian does the same, while the Amer. can is satisfied with from twenty-one to twenty five pounds. The African and the Asiatic, exporter can put 17,000 bales on American can only put from six to ten thousand bales on. The American says that owing to his looseness in packing he gets 1-16 of a cent the pound more at the mill for his cotton than his rival, but when this is offst by increased cost of freight, and above all by damage of fire, it sinks into insignificance

Mr. Monaghan, the American consul at Dresden, Saxony, says that the bale of cotton as packed in Egypt when it arrives at the mill in Chemnitz looks as if it were as safe from catching fire from a spark as a log of hard wood, while the bale packed in New Orleans or Galves-ton has a loose, dirty and inflammable appearance. The American exporter charters vessel to take out his cargo, and it does not matter whether he puts 500 or 1,500 bales in the hold, so far as cost is concerned; the more thrifty Bombay merchant buys space and uses economy all round It is very seldom one hears of Indian or Egyptian cotton taking fire, whereas in year (1895-6) forty-three fires were reported which had to do with the great southern staple.

The writer of the article from which the foregoing paragraphs are extracted is evidently well informed on the subject which he undertakes to discuss, although he does not sign his name to the article. The matter is one which vitally concerns the welfare of our southern farmers, and they should give it their careful consideration.

The American Bicycle. While adverse conditions during the past few months have greatly reduced our foreign exports, one exception must be made in favor of the American bicycle. In spite of the general depression this unique product of our manufacturing enterprise has continued to grow in popularity.

Our patrons across the water recognize the fact that Europe is wholly unable to cope with the United States in the bicycle industry, and, accordingly, the American wheel is becoming as popular on the other side of the Atlantic as it is on this. To show the extent of this popularity the following table, compiled from the official records of the government, may be cited:

FELL FROM A STREET CAR. Mrs. Freeman, of Decatur, Was Pain fully Injured Yesterday. Mrs M. O. Freeman, of Decatur, receiv-

ed very painful injuries yesterday mornfalling from an electric car on the line of the Atlanta railway. She was attempting to step from the car when it started very suddenly, causing her to lose her balance and fall heavily to the ground on her left side. She was assisted into a residence on Church street, where she was given at-

not thought to be very serious.

STABBED BY A NEGRO TRAMP. Flagman M. B. Suddeth Had an Ex-

citing Experience Yesterday. While attempting to eject a negro tramp from the caboose of a train on which he is flagman, M. B. Suddeth was stabbed twice in the face yesterday morning. The trainhad just reached the Mitchell street crossing when Suddeth noticed a negro boarding the caboose. He ordered him to get off and the negro refused to do so.

Suddeth then attempted to forcibly eject
the negro, who by this time had out an
ugly looking knife, and before the flagman could protect himself he was cut
on the left cheek and on the nose. Neither
of the wounds is serious. The negro
jumped from the train and ran in the direction of some empty cars. An officer,
who was standing near, gave chase and
after a run of several blocks succeeded in
capturing the man. He gave his name as off and the negro refused to do so,

Birmingham has every advantage. There is no point in the country where the advantages are so great. Of course we all know that in a matter of this kind merit does not always win; there is much politics in these decisions as a rule, and it may be that in this way we will be beaten. But I stand to my first proposition—if the question is decided on its merits, the great armor plate establishment, which the government is sure to are one are plate. ernment is sure to create sooner or later, will come to Birmingham for there the best results can be obtained and the govent can get the best returns for its "What about your smallpox?"

"Oh, that scare has about died out. There have been a few cases of smallpox, but it has not at any time been epidemic. We have had perhaps a hundred cases in a population of about fifty thousand, and that is not enough to scare anybody. Yes, it is true that some people outside of Birmingham have been scared, but there is no real reason for a scare. As far as the city itself is concerned, the smallpox has about been forgotten."

Colonel Underwood has undergone the unique experience of vaccination since his return from Washington. He has recovered from that and has gone on to Washington to confer with the authorities about the armor plate question.

"The campaign in New York city this fall will be on purely local lines," said Mr. James L. Parish, of New York, who was here yesterday on his way to New Orleans. "All indications now point to a victory for Tammany," he continued. "The so-called reform government has been rotten-no other word expresses it. It has been a travesty on good government and the people will overthrow it at the first possible opportunity. There has never been in my mind any doubt of the overthrow of the 'googoos,' as the reformers are called. Strong has been a comic opera mayor and the police board has been a travesty. tax payers of New York are sick of it all. They may have thought they were sick of Tammany in the past, and perhaps they were; but they have been shown that there was something worse than Tammany con-trol. "There is not much talk of politics down our way," said the genial solicitor general whom everybody calls by his first name. "The newspapers are doing a good deal of talk about the governorship, but so far the people seem to have paid very little atten-tion to the subject. However, I reckon they will open up in good time. You know time comes."

Of course the ladies could defeat it if they wanted to by all refusing to take their hats off, but just as soon as one of them starts it they all follow. But as to the ordinance keeping the men in their seats-while I frequently go out for a drink I think it is a good thing and ought to be passed. Not only on account of the ladies but out of consideration for the gentlemen who do not want to go out. It destroys all enjoyment every act and have your toes stepped on by a lot of fellows who can't wait till the per formance is over. The fellows who want a drink between every act ought to sit in the back of the house like I do, or the adies ought to band together and refuse to get up and let them out. RILEY HENDERSON.

Every year Americans read reports of the rise of floods in the Mississippi basin, and at periods of from five to six years the inundations are so excessive as to cause ap-palling disasters and fill the newspapers for weeks with accounts of them. Those of 1897 have been particularly notable, al-though when the waters subside and an authentic account is taken of the losses aused by them, it is uniformly discovered that the contemporary reports have been greatly exaggerated. Thus in April it was estimated that over 20,000 square miles were overflowed, 300,000 persons driven from their homes, and property losses of \$96,000,000 incurred. When the waters subsided it appeared that not half this damage had

### IMPORTANT COMMITTEE MEETS

Committee on Law Uniformity Is Now in Session.

MAYOR MELDRIM IS A MEMBER

Committee Has an Important Work Before It and Has Been at Work for Several Years.

Cleveland, O., August 23 .- One branch of the National Bar Association, the annual nvention of which begins on Wednesday,

went into session today.

It is the commission on law uniformity
the effect of which is to harmonize in important particulars the status of the differ-ent states. The committee has been at work for several years and while it has already attained valuable results it is laying foun-dations, broad and deep. Those present to-day were the president, Judge Lyman Brewster, Connecticut; Albert Hensne, New York, assistant secretary; Judge Franklin Fort, New Jersey; Mayor Peter John C. Richburg, Meldrim, Savannah; John C. Richburg, Chicago; Charles F. Labby, president of the Maine Bar Association; Frank N. Higgins and Hannibal K. Hamlin, Maine; Robert Williams and Louis E. Massey, Florida; W. P. McCrae, Virginia; Judge John H. Stives, Rhode Island; M. Ama Seaton, Rhode Island, and David L. Worthington,

California. The committee reported the same officers as those of the past year with the excep-tion of the vice president who was Mayor Meldrim, of Savannah. The officers of the committee are: President, Judge L. D. Brewster, Connecticut; vice president, Charles H. Campbell, Denver; secretary, Frederick J. Stimson, Boston; ass secretary, Albert Henshe, New York. The committee is now at work having the states adopt a uniform law on negotia-ble paper. Leonard A. Jones, of Boston,

pare a uniform act upon sales, will not, owing to illness, be able to be present until next year. The committee will resume its work tomorrow. The annual meeting of the American Bar

Association, which occurs in Cleveland, O., next Wednesday, Thursday and Friday, will be attended by a number of well-known Georgia attorneys. Judge Spencer R. Atkinson, Mr. Burton Smith and Mr. Morris Brandon left yes-terday afternoon for Cleveland, where they go to attend the meeting. Besides

them there will be other Atlanta lawvers present and Atlanta will be well The annual meetings of the American Bar Association are always occasions o great interest to the lawyers of America and the reports of the meetings are read with interest. A great number of lawyers are active members of the association

Hon. P. W. Meldrim, who is the Georgia representative on the general council, has already gone to Cleveland. The members of the local council are: Messrs. N. J. Hammond and Burton Smith, of Atlanta; A. R. Lawton, Jr., William R. Leakin and F. G. duBignon, of Savannah; Walter B. Hill, of Macon, and W A. Wimbish, of Columbus. Hon. Waher B. Hill, of Ma and Judge J. W. Akin, of Cartersville, will be in attendance at the meeting. association will be in session for three days and during that time a great amount of important bulness will be trans-acted. The questions of international treaty and arbitration will come up for

Professor Lane at Walker St. Church. Professor Lane will deliver one of his characteristic lectures at Walker Street , corner Nelson and Walker streets tonight at 8 o'clock for the benefit of the church. Professor Lane will have as his interesting subject "Lessons Not Learned in Books." The price of admission will be 10 cents.

Funeral of Mrs. H. D. Austin. The funeral of Mrs. H. D. Austin, whose sad death occurred last Sunday, took place

yesterday afternoon from the residence on Forrest avenue. The interment was at Oakland cemetery.

William Brown, an old man sixty years of age, was struck with a pickax yester-day morning by Leon English, and he is now lying at his home seriously injured. t seems that Brown accused a man by the name of Tomaston of stealing a pistol, and of the fact that Thomaston is his brother. in-law. The fight took place near Bolton, on the Chattahoochee.

It was the Hon. William A. Pledger who spoke. He was standing on a corner of Decatur street near one of his usual haunts and a coterie of colored politicians was about him.

It has been the general opinion that Pledger has received a "turn down" from the hands of the present administration and the success of his fellow colored republicans who allied themselves with the cause of McKinley seems to emphasize the early allegiance to Reed away back in the days of the campaign.

Since the republicans have had charge Pledger has been hanging on with the deination of receiving his reward. He has been sanguine and the fact that he applied for Jamaica and was not appointed did not seem to discourage him in the least. He pinned his hopes to the intercession of Hanna and the pull of Tom Reed, for whose sake he did the vicarious act. At one time it was found that he was on the pay roll in the capacity of page and a report was current in Washsinecure take out owing to the generosity

he is fully convinced on that point. The point is motive. The unwritten law which recently led a judge in Kentucky to discharge a prisoner whose killing of a man was not even denied and which still more recently led the governor to pardon a man convicted of killing another, is the only law which Governor Atkinson has to guide him in the Perry case. Under ordinary circumstances, this is a difficult law to handle in arriving at exact judgment, but in this instance its interpretation is specially difficult, because the motive for Perry's action is buried in a mass of evidence given by individuals who deny other's assertions in every material

"It is the most difficult case," said Governor Atkinson yesterday afternoon, "that has come before me during my administration. I have investigated it as thoroughly as I could, and I want to arrive at an honest conclusion. Officers of the Different Companies A Question Which Grows More and Were Transferred.

of Regiment. THE TROOPS TO RETURN FROM WACO

The Change Will Take Place When These Get Back-What Is Going on at the Post.

There has been a decided shake-up among the officers at Fort McPherson. It was thought for a time that there was some reason for the action taken at the headquarters of the army, which did not appear on the surface of things.

The shake-up was in the nature of a transfer from one company to another for six of the lieutenants, and there was some consternation at the post when the news was received. The order was issued on August 18th, but it did not arrive at the post until a day or two ago. When it did come the changes were found to be sweeping ones, and in the future the officers will command a different set of men. The fransfers which were made are as follows:

First Lieutenant Samuel W. Miller from Company C to Company K; First Lieutenant Joseph M. T. Partello from Company I to Company G; First Lieutenant William F. Martain from Company G to Company I: First Lieutenant Stephen M. Hackney from Company K to Company C; Second Lieutenant Edward Sigerfoos from Company I to Company C; Second Lieutenant Samuel V. Ham from Company C to Company I.

These changes cannot go into effect at once on account of the fact that the Second battalion, consisting of four companies is encamped near Waco, Ga., and as soon as they return the First battalion will proceed to camp, making it necessary to defer the changes until the return of the latter.

When the order giving notice of the transfers was received at the post and when the news of it reached the city, it was thought by many that it was caused by some dis-turbances at the post, but such is not the case. The officers say that it is almost impossible to tell why the change was made. but they all have their opinion about the matter, almost all of which coincide. It seems that the Fifth regiment of infantry originally consisted of ten compa nies, each being composed of fifty enlisted men. Soon after the regiment came to this city an order was received reducing the number of companies to eight and placing sixty-two enlisted men in each.

This left six officers without commands and they are still at the post. It has been the custom from time to time to change them from one company to another, sometimes giving commands to those officers who were without them, and again taking places away from officers who were with companies. This was done in order

This is evidently the reason why the transfers were made last week, as there has been no rupture of even the slightest nature between any of the officers. The regiment is in splendid condition and the men are anxiously awaiting the return of the Second battalion from Waco so they can practice on the range for the four weeks alloted to them for that purpose. Will Return August 28th.

No word has been received at the post in some time from the soldiers encamped at Waco. It is supposed, however, that they are doing well, for had anything of unusual importance occurred it is more than likely that news of it would have been received stating the particulars. When the First battalion returns the Sec-

ond will start for the scene of their en-campment and will spend four weeks practicing on the range with their rifles. Second battalion is expected home on August 28th, that being the day set apart for its return, and there is no reason why it should not be here.

The four companies which are now at the post will leave August 30th, and will return about October 1st. The averages

for each company and for each man will then be made out and there is some specu-lating at the barracks as to who will come home with the best record.

More Pressing.

HON. JOSEPH MANSFIELD'S ORIGINAL PLAN

This is a question which dwarfs all others of state character just now, involving not only the physical one of detention and punishment, but the moral one of humanity

In conversing upon the matter, Captain

Mansfield says: "Sapelo is naturally one of the richest spots on the face of the earth, and there was no land in the south which grew such magnificent cotton as was grown on this island before the war. That was when cotton was cultivated by slave laber; but since the war the growing of cotton as an industry has greatly lessened on the trouble with labor. With convict labor old-time conditions can be re-established in the growing of sea island cotton. This will interfere with nobody, and it will not cause there is so little sea island cotton grown that, even if the Georgia crop were increased ten times, it would not interfere with the price of the staple. It is well known that most of the convicts are negroes; and instead of injuring them, confinement on one of the coast islands would be perfectly healthy for negroes or whites; and, in the next place, it is a well-known such climatic conditions as surround Sapegroes who are confined in the coal camps of north Georgia die of consumption, which Is the worst enemy of negro convicts There would be no trouble of his kind at air while engaged in what would be not only a self-supporting industry, but also

### the state could not do better than to solve the convict question on such a basis. Something About the Island. Sapelo island is one of the largest islands on the coast of Georgia. It is upward of welve miles long, by three and one-half

miles wide. It is without doubt the best drained and (with the exception of Cumberland) the highest island on the Georgia coast. Its reputation for health is unsurpassed, the climate being delighiful both winter and summer. The lands on the island have always ranked very high; they are thoroughly situated for cultivation of almost any crop which can be grown in this latitude. Previous to the war it was the largest and finest sea island cotton plantation in Georgia. Truck of all kinds does well, also all kinds

of small grain and grasses. The natural pasturage of the island is unsurpassed; in fact, these pasture lands are finer than any lands this side of Kentucky cr Texas. In all seasons of the year these extures continue in fine condition. Horses, cattle and all kinds of stock do well. Wells and springs on this island are especially fine. Artesian wells can be driven on this island at almost nominal cost.

There are first-class deep water landings

and wharves, also safe harbors for yacths at various points on the island. At the south end the Dobby bar, and at the north end the unsurpassed Sapelo Irlet, are finer than any bar or port south of Norfolk. This island has also one of the finest beaches on the coast.

The Old Spalding Grove. The old Spalding grove at the south end of the island, with from seventy-five to 100 acres of magnificent live oak, is ac-knowledged by all who have ever seen it to be superior to any grove on the south ern coast. The grove is the size of the old home of Hon. Thomas Spalding, of McIntosh county, who purchased this prop-erty about 100 years ago. His old residence, built by himself early in this century, and one of the largest and handsomest buildings on the coast (the walls of v hich now stand well preserved and could be easily restored) stands in the center of this grove. The roads on this is and are level, shady and hard, furnishing magnificent driveways, and with the abundance of oyster shells in the vicinity these roads could be made equal to macadamized roads at a nominal cost.

The Capacity of the Island. This island contains about 43,00 acres of

land as follows:
Twenty thousand acres of nigh land, 20,-Twenty thousand acres of nigh land, 20,600 acres of sait marsh.

The high land is divided as follows:
Ten thousand acres uncleared oak and
pine; 5,000 acres open land suitable for cotton; 5,000 acres of savannah land, suitable
for corn, cotton and truck. Almost all of
the uncleared oak and pine land would
make the very finest sea island cotton,
and much of the sait marsh could also
be reclaimed and would make the lest sea
island land. Previous to the war the finest
sea island land was reclaimed marsh.

This Organization Claims That All Other Masonic Unions Among Negroes Are Frauds.

"The annual grand communication of the Most Worshipful Smooth Ashler grand lodge of all legitimate Masons, colored compact for the state of Georgia and jurisdiction thereunto belonging, will convene in

Atlanta August 30th." This is the notice sent out by the Masons of this order for their coming convention that will meet here on next Tuesday. This is a branch of Masonry that claims all other branches of colored Masonry to be unlawful, and they say for themselves that they are the only legitimate Masonry in Georgia made up of negroes.

They claim that the others are frauds and ns. During the convention Captain W. D. Matthews, most worshipful grand master of all legitimate Masonry, colored, of the United States of North America, will be present and lecture on the origin of Masonry of colored men and to show that Free and Ancient Accepted York Rite Masonry is the only legimate Masonry among colored men in the United

This lecture promises to be in the nature of a sensation, as it is understood that he will attack the other orders of Masonry and make many charges.

Delegations from all parts of the state will be in attendance, representing forty different lodges. The delegates will number 100 and preparations are being made to receive them. It is expected by the local Masons that this will be the largest and most successful of all the conventions of the order.

The reception committee say that it will be the gathering of the only legitimate body of colored Masons'in the state. They claim to be the only legal and rightful suc cessors of the Old Prince York Rite Masons, having obtained their charter from them. The other branches of Masons among the colored people denounce these as im-postors as strongly as the others and it is not known how they will be received here

by them.
A convocation of Royal Arch Masons and Knights Templars will be held during the days of the convention and a good time is anticipated by both organizations.

Many national grand officers will be in attendance. The following are the grand officers for this state.

Rev. H. R. Allen, grand master; W. N. Brown, deputy grand master; W. S. Russell, senior grand warden; J. C. Cook, ju-

seii, senior grand warden; J. C. Cook, junior grand warden; Rev. A. B. Allen, grand

GEORGIA FULTON COUNTY—Whereas, on December 31, 1895, the Park Avenue Land and Improvement Company executed to the Capital City bank, of Atlanta, Ga., a mortgage on the land hereinafter described, to secure the payment of a note for \$30,000 principal, due three years after date, with interest, which interest was represented by six other noies for \$30,000 principal, due three years after date, with interest, which interest was represented by six other noies for \$300 each, due respectively in 6, 12, 18, 24, 30 and 37 months after date, all payable to the order of said Capital City bank in gold coin. In said mortgage said mortgage, covenanted that, on default in the payment of any of said interest notes as they became due, the whole indebtedness should become due, at the option of said mortgagee. And whereas, one of said interest notes, due 18 months after date, amounting to \$000, is past due and unpaid; and whereas, it was contracted in said mortgage amongst other things, that in case of default in the payment of any of said interest notes when the same became due said mortgagee was authorized to advertise and self-said property to the highest bidder for cash for the payment of said debt, interest to date of sale, together with all disbursements, costs and charges for advertising, and commissions for selling. Any overplus after such payment to be paid over to the mortgagor. Time being of the essence of the whole contract. Now, said mortgagee on said defauit exercises its option and treats the whole of said indebtedness as due, and now, in accordance with the power contained in said mortgage, the undersigned will, on the first Tuesday in September, 1897, within the legal hours of sale, sell at public outery, before the courthouse door in said county, to the highest bidder for cash, the land described in said mortgage provided. Reference is hereby made to said mortgage. Which is of record in the clerk's office of Fulton superior court, February 3, 1896, in mortgage book 62, at page 341. The land covered by said mort

Today H. S. Perry will know his fate. All of the affidavits in the case are in he hands of the governor and the appeal for executive clemency has been made. There will be no appeal from the decision that will be rendered today. It is final. If the verdict of two courts is sustained, the murderer of Bezy Lanier will hang; if executive elemency is granted, then he goes to the pententiary.

Governor Atkinson leaves tonight for "I want to make the decision in the Perry case before I leave," said Governor Atkinson "I have notified the attorneys that if they want to put in any more evi-

dence they will have to do so today." This the attorneys did. The telegram that was sent to the father of Mrs. Perry just a few minutes after the crime was committed was handed the governor to-day. This telegram was sent from the Decatur fail while Lanier was still alive. It was addressed to W. D. Crosby, Auburn, Ga. "I have killed Bezy Lanier. In Decatur jail. Was protecting your child." The sensational evidence that was presented in the affidavits of the prosecution, at the solicitation of the father of Lanier, stated that Mrs. Perry had gone out on the electric cars after night unaccompanted. Her abusive language used toward several reporters who called on her the day of the killing was also introduced.

The testimony of Mr. Veal, who was a boarder at the house of Mrs. Perry, will have important bearing on the case. He has made an affldavit before the governor of a conversation that he had with Perry, In which the latter stated to him, with tears in his eyes, that Lanier had ruined Perry immediately sent telegrams to his. father-in-law to this effect.

Mr. Veal also states that he was on the front porch of the house at the time that the alleged deed occurred. He swears that Lanier came into the house and complained of a toothache, and that he went to his room; that Mrs. Perry followed him there with some medicine that she applied to his tooth. It was while in his room that Mrs. Perry claimed that the attempt was made.

Affidavits of every conceivable nature are before the governor. He had been examining them when a representative of The Constitution went into his office yesterday. One side of his desk they were pill-

The attorneys for the defense were discussing the case yesterday before the governor. Mr. Hoke Smith appeared before him as did Attorney Braswell, of Decatur. Both men argued their side, reading nery of their strongest affidavits.

Tomorrow Judge Candler will decide whether the grounds recently presented by the attorneys of Flanagan are sufficient to give him a new trial.

They are very numerous and it is tak-

ing considerable time of the court to look through them. Judge Candler has been busy holding the DeKalb county court and has not had, the time to look into the reasons made why the new trial should be given.

The points on which the issue hinges

The points on which the Issue hinges are the affidavits that have been brought into the case, and these are very conclusive that the jury was not wholly impartial and unprejudiced. It was expected that if the new trial should be given Flanagan would be tried at the present term of the court, but the court will close this week, and if the third hearing is granted to him the attorneys for the prosecution and defense will want some time to prepare the case anew and an extra session will probably have to be called.

It is confidently believed by the attorneys on the defense that their motion will be granted, while the attorneys for the prosecution cannot see that the grounds presented are in any way sufficient to call for a new hearing.

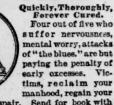

Y. M. C. A. SECRETARIES MEET. Convention Will Be Held in Macon and

Will Be Well Attended. Macon, Ga., August 23.—(Special.)—Great interest is centered in the convention of Young Men's Christian Association secre-Young Men's Christian Association secre-taries, which meets in Macon tomorrow. Several delegates arrived tonight and by tomorrow at noon all will be in. One of the features of the convention will be a grand union mass meeting Wednesday, night at the First Baptist church. Workers from all the churches

wednesday. Ingit at the churches will attend this meeting.

Among those who will make addresses are Hon. Peter Anderson, international secretary and at present acting secretary for Georgia; A. G. Kneble, of Charleston; R. H. King, Charleston; John Lake, Balesburg, S. C.; Henry Martin, Columbus; E. L. Matthews, Atlanta, and Mr. Finley, of Augusta.

Among the important matters to come up will be the probable dissolution of Georg'a and South Carolina as actual coworkers. These two states have been working together for the past five years under the state secretaryship of W. M. Lewis, of Atlanta. On August 1st Mr. Lewis resigned as Georgia's general secretary and will, in all probability, be elected to a similar position in North Carolina, thus throwing the Carolinas together, leaving Georgia alone.

### BANKSTON AND BIKE RAN DOWN A GIRL

Street Yesterday.

Gave the Officer a Neck and Neck Race.

Bicycle Cop Came Out at Last

Ahead.

Florence Bell, an escaped convict, led Mounted Officer Barkston a wild chase on Decatur street yesterday afternoon. For five minutes this officer mounted on his wheel made great spurts up and down

the different streets.

Finally, he came upon the little brown skin negro who was just getting her second wind and ready for another two mile run. She is now bewailing her fate at the po-lice station. "I lak" to run the life outen dat man," she said as the iron door closed on her. "Just a minute more and I'd had you in a walk."

About three weeks ago notice was received that Florence Bell had escaped from the city stockade. She had been sent up for disorderly conduct for the thirty day limit. This negro is one of the meanest of her race. She rules lower Decatur street where she is called the "Boss." Whenever Florence Bell comes up the negro men take off their hats and the women give her the entire street. "She's er bad nig ger," is the only excuse they give for their deference to the "Boss."

Whenever this negro is not in the stock-

ade she is out on the streets trying to get in. She has also been a guest of the state gang on several occasions.

Yesterday afternoon about 4 o'clock one of the enomies of Florence called Officer Bankston from the barracks and told him

that the escaped convict was on Decatur street that trouble was rising. Mounting his wheel the officer rode t where the negro had been last seen. Just as he crossed Butler street the woman saw

Down the middle of Butler street the chase began. Bankston is a fast rider, but he was unable to gain on the little woman in front. At the corner of Edge-wood avenue the officer was gaining fast. As they turned into Edgewood avenue the negro gathered her skirts into her arms and down this street they flew.
Fully a hundred negroes had joined in the chase by this time. Women, men and children were in the rear of the officer, yelling like Indians. The woman turned into Bell-street and

started back toward Decatur street. This was a good road. Up to this time he had been riding over rough ground and it was impossible to let himself out. Impossible to let himself out.

The negro was running well, but Bankston soon shortened the distance. He caught her just as she reached Gilmer street near the place of starting. Two hundred negroes were in at the finish, and they followed the officer and his prisoner back to Decatur street.

It was a great chase and Bankston is receiving the congratulations of the depantment. The negro has twenty-five more days to serve, but these will be increased to thirty on account of her escape.

#### ATLANTA MINISTERS MEET.

THE EVANGELICAL ASSOCIATION HOLDS WEEKLY SESSION.

Dr. J. B. Hawthorne Was There and Gave the Ministers an Interesting Talk-What He Said.

The Ministers' Evappelical Association held their regular weekly meeting in the First Baptist church yesterday morning.
The session was largely attended and was one of much interest to the members those present. For some time the meetings of the association have been attended by a small gathering, as a large number of ministers have been out of number of ministers have been out of the city for their vacation. They are now rapidly returning and the gathering yesterday took on the life of the previous meetings before the summer set in. There were present nearly all the minis-ters of the city of all denominations and many visitors. After the business of the association was through with no dis-cussion was taken up, as is the custom cussion was taken up, as is the custom of the meetings, but short talks were asked for from the visiting ministers and those who could give the younger ones valuable material in their work from their

own personal experience.

Dr. J. B. Hawthorne made a very earnest talk or his experiences and told with much feeling of his many happy times he had had in the church and of how glad he was to be again with the ministers of Atlanta.

He spoke of his work in Nashville as be-ng of the most pleasant character, and ing of the most pleasant character, an said that he had met some of the moconsecrated Christians of his life there He said that his health was so much improved lately that he felt he could go back to his work there with renewed energy.

Dr. Schaefer, of Augusta, spoke of his Dr. Schaefer, of Augusta, spoke of his experience and gave some sound thoughts to the younger and told some interesting history of his church. Other members spoke in the same line and it was said to have been a most enjoyable meeting.

New York, August 23.—By Associated Press: It has been a long day since the cotton exchange developed the activity and excitenent witnessed on 'change at the opening of business this morning. It is safe to say that the most sanguine built operators were not prepared for the advance that occurred on the first call, which commenced with August showing an advance that occurred on the first call, which commenced with August showing an advance of 13 points, gained strength as it progressed and culminated with an advance of 25627 points. There has been a large accumulation of buying orders over night, and notwithstanding considerable early selling pressure from Liverpool and New Orleans, the undertone of the market was unmistakably strong; after a break of 6600 selling pressure from Liverpool and New Orleans, the undertone of the market was unmistakably strong; after a break of 6@10 points, which followed the drst cell, the market gradually righted itself and not only returned to the best prices, but made a further decided gain, at the best point of the day, showing an advance of 36@39 points. Signs of manipulation in August, if not in September and October were detracted. The general improvement was based upon advance of 4½@5½d at Liverpool. Private cables state that the English cotton trade fear they have underdiscounted claims of damage to cotton through recent excessive rains in the cotton belt. The leading activity centered in October and January, the former selling at 7.21, an advance of 35 points on Saturday's closing figures, and the latter to 7.13 at an advance of 35 points of the activity of the entry of the saternately strong to easter, but always very active and excited, with the tone finally firm at a net advance of 33@55 points.

The Dry Goods Market.

The Dry Goods Market.

New York, August 23.—The dry goods market opened with pronounced activity in all grades. The market for cottons continued active, the slight falling off in the demand noted at last week's close being recovered today on mail orders from all sections of the country. The price situation is still firm in all grades, being noticeably so in brown goods, though sellers show little inclination to recede in any grade. Woolens show the same steady front which has ruled for the past two weeks in men's wear fabrics, the continued sales on the road at the advanced prices ruling. This is not confined only to the cheaper lines, but a considerable amount of higher priced goods have been disposed of recently. Staple cottons are very firm. In heaven goods there are many buyers really to duplicate previous orders, but sellers are, as a rule, disinclined to part with anything less than present rates. Ducks and Osnafergs are firm. Print cloths are firm at 24c. Prints are firm and fairly active.

Atlanta, August 23.—There was increased animation in the cotton trade today, the market awakening from the lethargy it has enjoyed for so long a period. Prices have scored material advance, with the gain at one time amounting to 35 points, 7 points of which was lost at the close on realizing by those who had made early purchases. The incentive today has been the continued wet weather threughout the cotton belt, which, it is feared, will make a poor run of receipts and cause a more urgent demand for spot cotton in the near future. Coupled with this is the lellef on the part of many traders that the great bull speculative feeling enjoyed in other markets is about to be imparted to cotton, and many purchasers were induced today upon this theory. Should the public decide to come into the cotton market on any liberal scale, we would easily see a wild and advancing market. Southern Exchange Cotton Letter.

Riordan & Co.'s Cotton Letter. New York, August 23.—The dynamite bomb upon which the bulls have claimed bomb upon which the bulls have claimed the cotton market was resting exploded today. Prices advanced. 33 points. Liverpool started off by cabling an advance of 4.64d in hat market this morning. The opening here was marked by such excitement as the brokers have been unused to for a long time. Every one seemed to have good buying orders. Prices opened from 13 to 23 points above the close on Saturday. Liverpool and the short interest were the heaviest buyers, but considerable outside buying was noticeable. Rumors that western wheat bulls were buying cotton and very light receipts contributed to the uneasiness of the shorts. Realizing sales caused a sharp slump after the opening, but the demand was always good, and when in the last hour New Orleans sent heavy buying orders here prices advanced rapidly and with surprising ease. January opened at 7.03, declined to 6.95, rallied to 7.02, again declined to 6.95 and then rapidly advanced to 7.12, closing at 7.11 to 7.12, with the tene of the market firm. It looks like a buil market and if speculation enters it may be come one. We cannot spare the enthusiasm, however, and we think that those who sell cotton cautiously will find epportunities to replace lower.

Paine, Murphy & Co.'s Cotton Letter.

Atlanta, August 23.—Judging from the course of the market this morning the public is just awakening to the lact that cotton is the cheapest article on the speculative list, and that prices had been depressed unduly in view of existing conditions. The trading this morning has shown great activity and fluctuations have been wider than for a long time. In fact, the public has been a greater factor than for months. Many buying orders accumulated since Saturday, the execution of which, in conjunction with the snarp advance in Liverpool of about 5 points before our opening and reports of damage from the Atlantic and gulf states, resulting from the continued wet weather, give us an exciting opening with prices ratifing anywhere from 13 to 25 points over Saturday's close. Naturally there was a slight setback after such a sharp advance, but the market has subsequently developed additional strength under continued buying for new account as well as for account of the short interest, which is large, until at half past 12 a net improvement of 21 to 30 points had been established. The near by options, August, September and October, have shown the greatest strength, reflecting the very strong statistical position of cotton. It begins to look as if manipulation was in progress in August. Owing to the fact that surplus supplies here are very firmly held, a further advance seems not improbable in that option, which will in all probability be reflected in the price of the September option. The wet weather may not only curt ill the prespective yield, but impair the quality and at the same time result in a very light movement during September, the effect of which would be to stimulate values. New York, August 23.—Liverpool seems to have been enormously oversoid on the prospect of a large yield. They rushed to cover today because recelpts continued light—nearly half what they were at this time last year. The result was an advance of nearly \$2 a bale from the lowest points touched last week. Cables report Liverpool higher on the curb after the close of that market. A few hundred bales of new cotton were sold-here today for delivery on August contracts. The weather indications are for clearing conditions throughout the cotton belt. Texas wires that recent rains have improved the crop, but the bureau report expected tomorrow is expected to show a deterioration in the Atlantic states. Private advices continue to report excellent crop prospects and promise a larger yield than any on record unless an early frost record. The greener was a larger first record. crop prospects and promise a larger year than any on record unless an early frost occurs. The general belief is in a large crop and small receipts during September. Supplies of cotton are smaller than for crop and small receipts during September. Supplies of cotton are smaller than for years, and this fact makes the struction dangerous. The outside interest hes not yet appeared as a buyer, being deterred by crop advices here and bad trade teparts from continental Europe. The market advanced during the afternoon on reports of large buying for Chicago account likely to appear at any moment. August was advanced with the balance of the market. There was a rumor that Mr. Neill would increase his estimate and this caused a slight reaction, only to find increased buying power. New Orleans advanced sharply and bought here at the top. The trade feels buillish on light receipts and a probable corner in August contracts. They think the advance today will have the effect of attracting new buyers and force up the Liverpool market tomerrow. The supposition is that August will be advanced sharply at the end, forcing shorts to cover all along the line.

### LARGE DEALERS BUYING BACK

teday shook itself free from the heavy re-straint which was imposed upon it during all last week and bounced upward again. all last week and bounced upward again. Today the larger operators who threw their holdings upon the market last week to reallee, bought back stocks in enormous vol-ume and brought the level of the market about up to that of last Monday. The great moneyed interests that were concerned in today's buying was shown by the heavy blocks of stocks that change hands and by the extensive buying of bonds. There was one order for any part of \$1,000,000 of a bond which is a favorite in the speculation at present. The com-mission houses, which had withdrawn from the market last week and had joined the selling movement toward the latter part of the week, were out in full force again in the market today. It was more a move-ment of the large dealers to buy back at the lower level what they had sold. The motive of the abandonment of the bear movement and the resumption of buying was a growing scepticism regarding the re-perts of reduced spring wheat crop in that orthwest. The enormous liquidation in northwest. The enormous liquidation in the wheat market gave confirmation to these doubts. The continued rise of wheat in England and on the continent, on the other hand, was continuing evidence of the foreign need for wheat and gave assurance of great freight traffic to the seaboard to transport grain and back again to transport the merchandise which the farmers' port the merchandise which the farmers' profits would buy. The strength of corn and cotton in London also aided the stock markets. The fact that foreign houses sold grain in the market and that purchases for export were largely curtailed did not prevent the sterling exchange market from weakening %c for actual rates of both long and short sterling, the former falling to 4.833, and the latter to 4.851/2. LIVELY SESSION OF UNLOADING. Resulted in a Break of 2c in Price of

Resulted in a Break of 2c in Price of Wheat.

New York, August 23.—There was a lively session of general unloading by all classes of traders in the wheat pit today, which resulted in a net break of 2c a bushel from Saturday's official close and about 4c from the high price of Saturday. Transactions in the aggregate ran up to 14,000,0000 bushels, and yet trading at times was dull to the point of stagnation. The heaviest selling was right at the opening, when foreign houses joined in heavily and again near the close. Except for a brief period of strength, following immediately after the opening irregularity, the market showed positive heaviness all day. Many traders on the curb, and even right at the opening. Bilinded by their bull enthusiasm and the 3½ advance in Liverpool futures, took on more wheat, expecting a continuation of recent exciting bull conditions, but were speedily turned into heavy sellers by the unlooked for attitude of the foreign element whose offerings fairly swamped the market for a time. Trades in December were made at \$1.04. It then dropped sharply to \$1.01½ and then settled down to \$1.02, hung around that figure until near the close, when it fell to \$1.01½. September ranged from \$1.03 to 106% and closed at 1.03½. The French markets aided the bears. They made no response to Saturday's strength on this side and closed only 10 to 50 points up on wheat and flour, against 4½.45d advance for the day at Liverpool. Export trade was limited by the stiff holding of cash wheat here, No. 1 northern being 8.08% over September, and No. 2 red 4½c over. Today's break has been the first serious check the bull movement has received in a week, First prices were 1½c higher than last night on excited trading, influenced by a sharp rise in cables, but a subsequent turn in trading sentiment sent prices flying to the other wall, inducing heavy realizing, which continued all day. Wheat.

prices flying to the other wall, inducin heavy realizing, which continued all day. Will Be No Reduction.

andon, August 23.—A dispatch to The Mall Gazette from Paris, printed this afternoon, says:

"There will be no reduction in the tax on imported wheat and flour. The reply of the government to the representations of the subject say that the temporary scarcity of wheat in the French market is owling to the bad harvest and that as soon as American and Australian wheat arrives at French ports the situation will right itself." Continuing, the correspondent of The Pall Mall Gazette telegraphs: "The government, probably knowing that the elections are drawing near, is mortally afraid of offending some peasant who usually grows wheat. On the other hand, the working classes who constitute the mass of the population in large towns, still live largely on bread."

Paine, Murphy & Co.'s Grain Letter.

Atlanta, August 23.—The response of Liverpool this morning to the advance made here Saturday the buying feyr carried over from last week and the newspaper reports regarding the strong situation existing everywhere and the opinion of grain men generally that the advance is legitimate and warranted, created a bullish feeling before the opening, and the curb prices for September were quoted as high as 102½. It is very apparent, however, from the opening on the exchange and the quick decline which followed, that numerous holders came down this morning with the lintention of selling out, expecting to find a stiff demand to take care of their offerings, but dollar wheat is somewhat of a novelty now, and speculators were few and far between who were willing to pay that price after so much advance; in fact, the tendency seemed to be to sell short, the result being that offerings found rather a weak market and % was quickly marked on the board, against an opening all the way from % to \$1. At the low price of % c, there developed a large demand, the orders probably coming from some of the bull leaders. The market quickly recovered and sold up over 4c per bushel, but on the advance a great deal of long wheat was marketed, but prices were so very uncertain and nervous that fluctuations were wild, moving up and down 2c per bushel in very quick order. Final figures, however, show a net loss for the day of about 1½c per bushel, which is likely to bring lower cables in the morning. Liverpool today closed all the way from 5 to 6c per bushel higher than last week, while continental markets were up ½ to % 2c. While the world's wheat shipments were about the same as the week previous, the figures were bullish, inasmuch as Russian, Danubian shipment show a further falling off, the deficiency being made up by the increased exports from this side. Clearances were light at 186,000 bushels. At the seaboard foreigners were reported as rather free sellers of futures.

Sentiment was the only cause for Paine, Murphy & Co.'s Grain Letter.

Atlanta, August 23.—The stock market teday continued in a more pronounced manner the movement toward recovery, which set in at the end of last week. The dealings were on a considerably larger scale, and there was increased variety in the rumber of different issues dealt in.

In the morning there were occasional concessions from profit taking and some bear selling, but in the afternoon the buying carried prices 162 per cent above Saturday's close. The greatest strength was shown by the Grangers, the coal stocks, Northern Pacific preferred, Southern Rail-

Chicago, August 23.—The upward rush of the wheat market was estopped today. The September option sold as high as \$1.02\(\frac{1}{2}\) per bushel higher on the curb, but broke early on change under a flood of realizing sales, declining to 95c in the first five minutes' trading, and closing at 96c, a decline of 4\(\frac{1}{2}\) c since Saturday. December also suffered, the closing price, 95\(\frac{1}{2}\) c being 3\(\frac{1}{2}\) c under Saturday's closing figures. Trading minutes' trading, and closing at 30c, a deciline of 4½c since Saturday. December also suffered, the closing price, 25½c being 3¾c under Saturday's closing figures. Trading in corn and oats was on a mammoth scale and marked by frequent fluctuations. Realizing was heavy in both markets. Corn declined ½c and oats ¾c. Provisions closed unchanged to 10c lower. A g per cent decline was chronicled in flasseed.

It looked at the opening of the day's business in wheat and flour and for fifteen minutes afterwards as if bedlam had been permanently established on the 'board xit trade, but the frenzy abated somewhat at the end of that time. The Liverpool market again set the pace for the first dash by excited cables, showing an advance of from 46g44g per cent higher than Saturday—that is, equal to from 5c to 5½c per bushel. That caused the trader ion the open board to pay \$1.02½ for September wheat. Before trading commenced on the regular board, however, the curb price had dropped to \$1. When the opening bell sounded for the official commencement of the day's proceedings, there were hundreds offering to sell September at from \$1 down to 37c, while December was offered at the same time at from \$1 to 37½c. Before five minutes of the session was over both September and December were down to 5%c. In another five minutes they had recovered again to 57½c and then to 38c, to 37c, to 96½c, to 38c once more and very soon to 99½c. During that time the price of two deliveries were alternately in the lead, but after half an hour of such irregularity September settled into a lead of about ½c. The break from around \$1 to \$5c was stopped at that and the price rose fin an equality sudden and agitated way, when cables showed that Liverpool had still further added to the first advance. The rise in the price had at 3:30 p. m., Liverpool time, reached 5½c or 6½c per bushel over Saturday's latest. When the agitation here had somewhat quieted down the fluctuations narrowed considerably and kept for a time within ½c of 38c. The ordinary market ne under Saturday's closing figures. Trading

reason for another advance. September was back to 96c and December 95%c—about fifteen minutes from the close, and those were the prices when the closing bell were the prices when the closing bell sounded.

Every big trader with corn showing a profit in it appeared to be a selier today. The market was so very strong that it was easy at first to find buyers for the offerings. The influential factors at the start were 3d advance at Liverpool and crop reports of an unfavorable nature. The tremendous quantities that were poured into the pit all the foremon told in the end, and toward the close the market became very weak. The start was wild, September bringing from 32 to 33 simultaneously, and December from 34 to 35½c compared with Saturday's closing prices of 31½c and 33½c. The market soon broke badly with wheat, and though recovering later, became weak again, the

compared with Saturday's closing prices of 31½c and 33%c. The market soon broke badly with wheat, and though recovering later, became weak again, the lowest prices of the day prevailing as the market was closing. Local receipts were heavy, 1,793 cars. September broke to 31%c, recovered to 32½c, then declined to 33%c, recovered to 34½c and declined to 32%c, recovered to 34½c and declined to 32%c, recovered to 34½c and declined to 32%c, closing at 32%c. The seaboard reported 100 loads taken for export.

There was important liquidation in oats as in all the other pits. Prices opened with a rush, September starting %c higher at 20c and advancing immediately to 20¼c, while December opened ¾@lc higher at 220½c. There was good outside buying all day, but not enough to counteract the effect of the heavy liquidation of long wheat holdings by elevator people, which was chiefly responsible for the drop which ensued shortly after the opening. The selling was of course influenced greatly by the action of wheat. Local receipts were 807 cars. September declined to 19c and closed at 19½c. December dropped off to 20½c afd closed at that price bid.

Provisions were higher early in the session on the strong hog market and under the sustaining influence of good buying orders, but there were too many local traders ready to sell out for the market to maintain its opening prices. Packers generally were free sellers. At the close September pork was 10c lower at \$8.57½, September lard unchanged at \$4.65 and September ribs 5@7½c lower at \$8.52½.

Atlanta sent up several representatives of the O. M. Mitchel post. Captain J. P. Averile, department com-mander, accompanied by his wife, left Sunday. Major C. T. Watson, past department commander; Captain George L. Wood and De Forrest Wood, commander of the O. M. Mitchel post, was accompanied by his wife and daughter. Charles Tredwell

and other members of the local post were on the same train. Large delegations from other cities in the state have gone to the meeting. Fitz-gerald sent up probably the largest dele-gation, with the exception of Atlanta. Other cities that will have representatives are Augusta, Savannah, Charleston, Tal-lapoosa, Brunswick, Macon, Hilton Roads, Buford, S. C., and others.

Great Times Ahead.

The parties that left were in a jolly humor and intend to make the long trip from here to Buffalo a pleasant one. They arrive in Buffalo tomorrow-morning early and will go at once into a business session. There will be five days of active work by the order and then the visitors will give several days to sight-seeing. The Buffalo post has made extensive arrangements for the entertainment of the v.s. iors. The steamboats on the lake will make daily excursions to the different points of interest on Lake Erle. Probably the most enjoyable trip that has been arranged for the visitors will be the one down the Niagara river to the falls. The Grand Army of the Republic has chartered steamboats for the express purities to carry their friends down the river and let them see this wonderful fall. One day

will be spent at Niagara. The fishermen in the crowd will go out on a special boat up the lake to a well known fishing grounds and enjoy them-selves while the others visit other points of interest.

Several of the points that will be visit ed are Ontario Beach, Rochester, N. Y., a special train will be run up to Chautauqua lake and the party will disembark and enjoy a trip across this beautiful body of water. Special rates, both by boat and rail, have been secured to Ontario, Can-ada, and if the visitors want to take this trip it will be arranged for them. The tickets that were sold from Atlanta for the round trip are good until September, and those leaving Atlanta and other intermediate points will not return until their limit runs out.

## THE TRANSFER CASE WILL BOB UP AGAIN

1st in the Matter.

EXPERIMENT IS BEING MADE A LARGE CROWD GOT OFF THREE CONDITIONS NAMED The Plaintiffs Have Until First Mon-

> day in September. HOW THE FULL CASE NOW STANDS

Interesting Litigation Has Developed and the Attorneys Are Now Wait-

ing for Coming Hearing. The hearing of the transfer case is in

sight. tiffs on or before the first Monday of September. The plaintiffs in the case consist of the Old Colony Trust Company and Samuel Spence and others, represented by Brandon & Arkwright, H. O. Seixas, represented by N. J. & T. A. Hammond, and the Consolidated Street Railway Company, represented by Payne & Tye and King &

The city of Atlanta is the defendant in the case, and is represented by the city attorneys, Judges Anderson and Pendleton and King & Spalding. After the transfer ordinance had been passed by the council and approved by the mayor, the Old Colony Trust Company filed a bill enjoining the city from enforcing the ordinance.

This started the fight, and the city attorneys were not slow in taking up the reins for the city. They filed a demurrer to the bill for injurction, alleging that even should all of the allegations in the infunction be true, the Old Colony Trust Company would not be entitled to relief at the hands of the court. This demurrer was argued in Asheville, N. C., before Judges Newman and McCormick, who overruled the demurrer of the city, and in their de-cision stated that in their opinion the city of Atlanta had not the power to regulate the rates of fare for the street railways, and that especially the city had not the power to enforce a transfer ordinance. After the decision the city of Atlanta, in-

stead of accepting it as final, filed an answer for reasons of insufficiency, or they Company, in which certain allegations made by the plaintiffs were admitted, while others were denied. This is how the case now stands. The plaintiffs have until the first Monday in September to do one of three things. They can except to the answer for reasons of insufficiency, r they can set the case down for a hearing upon the bill and answer, or they can file what

is known as a general replication.

It is probable that the last alternative will be the step taken by the plaintiffs, and the case will then be at issue. Evidence will be taken, the court holding its sittings in this city. After the decree of court, which will be in favor of the plain-tiffs, as Judges Newman and McCormick have already expressed the opinion that the city has no power to compel any street railroad to give transfers, the defendant will in all probability appeal the case to the circuit court of appeals, which is composed of three judges, and which is

situated in New Orleans.

It is looking into the dim, distant future to follow further the steps which may be taken by either side. Mayor Collier has announced his intention of taking the matannounced his intention of taking the mat-ter to the supreme court of the United States.
